In addition, each district that receives assistance under the Individuals with Disabilities Education Act (IDEA) must make positive efforts to employ, and advance in employment, qualified individuals with disabilities in programs assisted by the IDEA. *34 CFR 300.177(b)*

DEFINITION OF
DISABILITY

“Disability” means a physical or mental impairment that substantially limits one or more of an individual’s major life activities, a record of having such an impairment, or being regarded as having such an impairment.

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures, such as medication, medical supplies, low-vision devices (which do not include ordinary eyeglasses or contact lenses), prosthetics, hearing aids, mobility devices, oxygen therapy, assistive technology, or learned behavioral or adaptive neurological modifications.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. An impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

An individual meets the requirement of being “regarded as” having an impairment if the individual establishes that he or she has been subjected to an action prohibited by the ADA because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity. However, this provision does not apply to impairments that are transitory or minor. A transitory impairment is one with an actual or expected duration of six months or less.
